

Electrical Designer/Engineer

3 to 5 Years Experience

Cammisa + Wipf Consulting Engineers is a 57 year old firm located in the SoMa neighborhood of San Francisco, California. Our firm provides mechanical, electrical, and plumbing engineering, and architectural lighting design for institutional, commercial, and industrial buildings, with a heavy emphasis on healthcare facilities.

We specialize in providing clients with creative, quality design solutions that meet both short and long term goals. We focus on delivering high quality engineering services, fostering close professional relationships, are committed to mentoring young designers and engineers, and strive to be at the forefront of the ever evolving technology that continuously transforms the building design and construction industry.

We love what we do and hold ourselves to the highest standards in quality, integrity, and service on every project. We are seeking qualified, motivated, hands-on individuals with 3 to 5 years of building engineering design experience who are growth oriented with a strong interest in designing electrical systems for the building construction industry. Responsibilities include in-house design and collaboration, administration of construction work, and field review of construction work for compliance with design.

The ideal candidate...

- Possesses a passion for creative and detailed design solutions
- Has an interest and understanding in sustainability issues and practices
- Demonstrates an appreciation of related architectural, structural, and mechanical issues
- Has the ability to effectively communicate and collaborate with owners, clients, code officials, consultants, contractors, and team members

Qualifications

- Bachelor of Science in Electrical Engineering
- EIT/FE required
- PE preferred
- LEED Accreditation preferred, required within 12 months of employment
- 3 to 5 years of project engineering experience (design through construction)
- Working knowledge of electrical codes and other applicable building codes
- Background in power and/or lighting aspects of building design and construction
- Working knowledge of AutoCAD and Revit
- Experience preferred with one or more project types in Healthcare, Education, Commercial/TI, Museum/Cultural and Master Planning
- Construction support
- Strong written and verbal communication skills

Cammisa + Wipf is an Equal Opportunity Employer.
