

Cammisa + Wipf Consulting Engineers has been a recognized leader in mechanical, electrical, and plumbing engineering and architectural lighting design in the Bay Area since 1958. We specialize in complex healthcare, research, educational, civic, and infrastructure projects for institutional, corporate, government, and developer clients.

### Job Description

We are seeking a hands-on mechanical designer or engineer with proven abilities in the design of mechanical systems. This is an opportunity to join an innovative, established firm. Responsibilities include in-house design, collaboration, and field observation of construction work. The ideal candidate should meet the following criteria:

- Possess a passion for creative design solutions
- Be detail oriented
- Have a thorough working knowledge of load calculation and energy modeling software programs
- Have a thorough understanding and interest in sustainability issues and practices
- Demonstrate an appreciation of related architectural, structural, electrical, and acoustical issues
- Be able to effectively collaborate with owners, construction managers, contractors, and code officials

### Key Qualifications

- Efficient production of HVAC (and/or plumbing) construction documents
- Minimum 5 years experience in the HVAC industry
- Experience in healthcare design and involvement in all phases of a project
- Understanding of applicable codes
- Proficiency with AutoCAD and/or Revit
- Ability to coordinate with multiple disciplines
- Strong written and verbal communication skills
- Growth oriented and willing to develop leadership skills and client relationships

### Value Added Qualifications

- BSME
- Registered PE or EIT
- LEED Accredited
- Certified Plumbing Designer
- Plumbing/Medical Gas/Laboratory Gas/Fire Protection design skills or willingness to learn

### About the Firm

Cammisa + Wipf's goals are to deliver high quality engineering services, foster close professional relationships, and be at the forefront of the ever-changing technology and sustainability consciousness that is transforming the design and construction industry. Cammisa + Wipf is recognized for detailed construction documents and active partnering with owners and contractors to ensure quality installations that are delivered on time and on budget.

Cammisa + Wipf is committed to personal mentoring of young engineers. We maintain a high ratio of principals-to-staff, so that principals can provide continual guidance and leadership. Engineers and designers are assigned to projects from inception through final occupancy and are trained in every aspect of the consulting practice. We offer a wide variety of projects providing great potential for professional growth. We offer a strong compensation and benefit package.
